0 PURPOSE OF THIS DOCUMENT

These Implementation Guidelines contain only the details relevant to the SEPA Credit Transfer Reversal AOS. In order to allow an easy interpretation of the AOS, the document respects the basic structure of the SEPA Inter-PSP Implementation Guidelines 2023 version 1.0 to which it relates. This document contains only the sections which differ from those of said Implementation Guidelines. The sections of these Implementation Guidelines respect the numbering of the SEPA Implementation Guidelines, this is why they do not follow from time to time the logical numbering sequence.

0.1 References

This section lists relevant documents of interest.

0.2 Change History

Issue number	Dated	Reason for revision
V 1.0	February 2012	Proposition of French community, as initiator
V 2.0	February 2023	<p>SEPA Scheme inter-PSP Implementation Guidelines changes</p> <p>Adoption of changes to SEPA Rulebook and Implementation Guidelines version 2023 including adoption of ISO20022 version 2019 messages.</p> <p>Changes resulting from "Errata to the SCTR Implementation Guidelines" published in July 2013 and applicable from the 1st February 2014 have been integrated.</p>

0.3 Purpose of Document

The objective of these Guidelines is to define the rules to be applied to the inter-PSP ISO 20022 XML message standards for the implementation of the SEPA Credit Transfer Reversal AOS as defined in the SEPA Credit Transfer Reversal AOS User Guide.

1 INTRODUCTION

This document sets out the AOS rules for implementing the inter-PSP SEPA Credit Transfer Reversal ISO 20022 XML message standards. The SEPA Credit Transfer Reversal AOS User Guide defines datasets which are implemented in the relevant ISO 20022 XML message standard as follows:

SEPA Credit Transfer Reversal AOS User Guide	ISO 20022 XML Message Standards
SCTR-DS-01 <i>SCT Reversal Dataset</i>	FI to FI Payment Reversal (pacs.007.001.09)
SCTR-DS-02 <i>SCTR Return or SCTR Refund Dataset</i>	Return – Payment Return (pacs.004.001.09)
SCTR-DS-03 <i>SCTR Reject Dataset</i>	Reject – FI to FI Payment Status Report (pacs.002.001.10)

The Guidelines for the inter-PSP SEPA Credit Transfer Reversal message standards are mandatory.

1.1 Coverage of the AOS Implementation Guidelines

The purpose of the AOS Implementation Guidelines, hereafter referred to as the Guidelines, is to provide guidance on the use of the Global ISO 20022 XML standards in making transactions under the AOS as defined in the SEPA Credit Transfer Reversal AOS User Guide and supplemented by processing requirements.

The Guidelines are fully aligned to the AOS core requirements as defined in the User Guide and identify message elements needed for inter-PSP, as shown below.

Global ISO 20022 XML Message Standards			
Message elements from the ISO messages corresponding to the AOS User Guide requirements	Message elements that are mandatory in the ISO messages or needed for Inter-PSP Processing	Message elements from the ISO messages available for use by third AOS within an EPC Governance framework	Message elements from ISO messages not applicable to the AOS
AOS Implementation Guidelines identifying elements : <ul style="list-style-type: none"> - To be used as defined in ISO - To be used with AOS usage rules (from or completing the AOS User Guide) 		May be developed and documented by third AOS Communities	Not available for use in the AOS

These Guidelines define the message elements needed for processing the AOS by PSPs and Clearing and Settlement Mechanisms.

1.2 Use of these Guidelines by the instructing and instructed parties³

- SEPA Credit Transfer Reversal transactions under the AOS are executed using messages only containing message elements defined as part of the AOS mandatory subset (shaded yellow in the message descriptions below).
- It is the responsibility of the instructing party of the message to ensure that message elements defined for use under the AOS are only included in messages sent to AOS Users.
- The instructed party receiving a message containing AOS-related message elements, but which is not a member of the AOS community, may ignore the information, that is, not use it for processing, nor forward it to the next party in the chain. The instructed party, however, may reject the message for this reason.

³ Instructing and instructed parties include CSMs.

2 PSP-TO-PSP MESSAGES

2.1 Inter-PSP SCT Reversal Instruction (SCTR-DS-01)

2.1.1 Use of the Payment Reversal (pacs.007.001.09)

The message is used to transport the Inter-PSP Reversal Instruction of Credit Transfers sent by the PSP which issued the bulk of original erroneous SCTs to the Beneficiary PSP, directly or through intermediaries.

The message can also be used to reverse instructions of SEPA Credit Transfers with Extended Remittance Information (ERI, please refer to section 'Inter-PSP payment with use of the Extended Remittance Information option' from the SCT Rulebook) whereby only AT-T010 'The unstructured Remittance Information sent by the Originator to the Beneficiary in the SEPA Credit Transfer Instruction' will be forwarded.

The message caters for bulk reversal instructions.

Note: Attribute SCTR-AT-R001 'The type of R-message' in SCTR-DS-01 is implied by the 'Message Name', 'pacs.007.001.09' and the 'Original Message Name Identification set to 'pacs.008.001.08'.

Note: 'Original' message elements are based on DS-02 attributes.

2.1.2 Message Element Specifications

Reasons for an inter-PSP reversal present in the Rulebook are mapped to the ISO codes as follows:

ISO Code	ISO Name	SEPA Reason as specified in the User Guide
AC03	InvalidCreditorAccountNumber	Wrong IBAN in SCT
AM05	Duplication	Duplicate SCT sending
AM09	WrongAmount*	Wrong amount in SCT
RC07	InvalidCreditorBICIdentifier	Wrong BIC in SCT

2.2 Inter-PSP SCTR Return/SCTR Refund (SCTR-DS-02)

2.2.1 Use of the Payment Return (pacs.004.001.09)

The message is used to transport the SCTR Return/SCTR Refund instruction between PSPs, directly or through intermediaries.

If the 'Return Originator' contains a 'Name', this means that the message is being used as a Refund. If the 'Return Originator' contains a BIC, this means that the message is being used as a Return.

The message can also be used to return Reversals of SEPA Credit Transfers with Extended Remittance Information (ERI, please refer to section 'Inter-PSP payment with use of the Extended Remittance Information option' from the SCT Rulebook) whereby only AT-T010 'The unstructured Remittance Information sent by the Originator to the Beneficiary in the SEPA Credit Transfer Instruction' will be forwarded.

The message caters for bulk and single SCTR Return/SCTR Refund instructions.

Note: Attribute SCTR-AT-R001 'The type of R-message' in SCTR-DS-02 is implied by the 'Message Name', 'pacs.004.001.09' and the 'Original Message Name Identification set to 'pacs.007.001.09'.

Note: Message elements under 'Original Transaction Reference' sequence are based on 'Original Transaction Reference' elements of the pacs.007.001.09.

2.2.2 Message Element Specifications

Reasons for an inter-PSP SCTR **Return** present in the AOS User Guide are mapped to the ISO codes as follows:

ISO Code	ISO Name	SCTR Return/Refund Reason as specified in the AOS User Guide
AC01	IncorrectAccountNumber	Account identifier incorrect (i.e. invalid IBAN) in SCTR
AC04	ClosedAccountNumber	Account closed
AC06	BlockedAccount	Account blocked
AM04	InsufficientFunds	Insufficient funds
AM05	Duplication	Duplicate SCTR
ARDT	AlreadyReturnedTransaction	Already returned original SCT
CUST	CustomerDecision	Beneficiary's Refusal
MD07	EndCustomerDeceased	Beneficiary deceased
RR04	RegulatoryReason	Regulatory Reason
NOAS	NoAnswerFromCustomer	No response from Beneficiary
NOOR	NoOriginalTransactionReceived	Original SCT never received
RC07	InvalidCreditorBICIdentifier	Incorrect BIC of the Beneficiary PSP in the SCTR

The reasons for an inter-PSP SCTR Refund specified in the AOS User Guide are mapped to the ISO codes as follows:

ISO Code	ISO Name	SCTR Return/Refund Reason as specified in the AOS User Guide
ARDT	AlreadyReturnedTransaction	Already returned original SCT
NOOR	NoOriginalTransactionReceived	Original SCT never received
MD06	RefundRequestByEndCustomer	Unauthorised transaction

2.3 Inter-PSP SCTR Reject (SCTR-DS-03)

2.3.1 Use of the FI to FI Payment Status Report (pacs.002.001.10)

When the code 'RJCT' is used in 'Status Reason' the message transports the SCTR Reject instruction between PSPs, directly or through intermediaries.

The message can also be used to reject Reversals of SEPA Credit Transfers with Extended Remittance Information (ERI, please refer to section 'Inter-PSP payment with use of the Extended Remittance Information option' from the SCT Rulebook) whereby only AT-T010 'The unstructured Remittance Information sent by the Originator to the Beneficiary in the SEPA Credit Transfer Instruction' will be forwarded.

The message caters for bulk and single SCTR Reject instructions.

Note: Attribute SCTR-AT-R001 'The type of R-message' in SCTR-DS-03 is implied by the 'Message Name', 'pacs.002.001.10', the 'Original Message Name Identification set to 'pacs.007.001.09' and 'Status' set to 'RJCT'

Note: Message elements under 'Original Transaction Reference' sequence are based on 'Original Transaction Reference' elements of the pacs.007.001.09.

2.3.2 Message Element Specifications

The reasons for an inter-PSP **SCTR Reject** specified in the AOS User Guide are mapped to the ISO codes as follows:

ISO Code	ISO Name	SCTR Reject Reason as specified in the AOS User Guide
AC01	IncorrectAccountNumber	Account identifier incorrect (i.e. invalid IBAN) in the SCTR
AC04	ClosedAccountNumber	Account closed
AC06	BlockedAccount	Account blocked
AM04	InsufficientFunds	Insufficient funds
AM05	Duplication	Duplicate sending
ARDT	The transaction has already been returned	Already returned original SCT
CUST	CustomerDecision	Beneficiary's Refusal
MD07	EndCustomerDeceased	Beneficiary deceased
NOAS	NoAnswerFromCustomer	No response from Beneficiary
NOOR	NoOriginalTransactionReceived	Original SCT never received
RC07	InvalidCreditorBICIdentifier	Incorrect BIC of the Beneficiary PSP in the SCTR
RR04	RegulatoryReason	Regulatory Reason

3 LIST OF MAIN CHANGES IN THE SEPA CREDIT TRANSFER REVERSAL AOS INTER-PSP IMPLEMENTATION GUIDELINES RELATIVE TO VERSION 1.0 (2012)

3.1 General

- Update of reference documents (§ 0.1);
- Adoption of changes to SEPA Rulebook and Implementation Guidelines version 2023;
- Migration to the 2019 message version of the ISO 20022 standard;
- Alignment of the message description layout with the current SEPA Implementation Guide standards;
- Update of the SEPA Credit Transfer attributes numbering according to SEPA rulebooks 2023;
- Update of the AOS attributes numbering according to the AOS User Guide;
- Replacement of "Bank" by "Payment Service Provider" (PSP).

3.2 Errata

- Changes resulting from "Errata to the SCTR Implementation Guidelines" published in July 2013 and applicable from the 1st February 2014 have been integrated.

3.3 Section 1 'Introduction'

- Update of the Dataset numbering according to the AOS User Guide.

3.4 Section 1.1 'Coverage of the AOS Implementation Guidelines'

- Addition of a matrix describing the implementation principles of the ISO 20022 standards in the AOS framework.

3.5 ISO 20022 messages

- Integration of the new elements such as 'Original UETR', 'Supplementary Data', 'Purpose', etc.
- Possibility to provide a structured address of the Payment Service User as stated in the SCT Rulebook 2023;
- 'Debtor Account': Element has been opened and new optional sub-element 'Proxy' is shaded yellow. New attribute: "AT-P003 The Proxy/Alias of the account of the Originator";
- 'Creditor Account': Element has been opened and new optional sub-element 'Proxy' is shaded yellow. New attribute: "AT-E003 The Proxy/Alias of the account of the Beneficiary";
- 'Remittance Information/Unstructured': Following SEPA Usage Rule has been included in line with document EPC088-22 "EPC Guidance Document – Improve Transparency for Retail Payment End-Users".
